SUMMARY

Highly motivated Data Science and Computing student with a strong foundation in software engineering and a keen interest in technology and creating impactful solutions. Passionate about and actively looking to gain experience in the fields of technology, fintech and finance.

EDUCATION

Birkbeck University of London   Oct. 2023
BSC Computing and Data Science   *London,UK*
- Year 2 compulsory modules: Python, Java, SQL, Web Authoring, Foundations of Data Science, Computer Systems, Database Technology, Mathematics for Computing, Software and Programming, Systems Analysis and Design.

Unigran University   Feb. 2020 - Feb. 2021
Marketing   *Brazil*
- Statistics, Strategic marketing, language and argumentation, negotiation, Civil and consumer law.

WORK EXPERIENCE

JP Morgan   April. 2024
Spring into technology program   *London, UK*
- Selected for JP Morgan's spring into technology program, covering topics such as test-driven development, agile development and infrastructure platforms. Performance led to Summer 2025 internship offer.
- Developed a webpage using Flask during JP Morgan's 'Force for Good' hackathon and integrated an SQLite database to track key data for future analysis, supporting the UK Sepsis Trust's initiatives. Additionally, participated in a 5-hour solo competition hosted by Make It Happen, where I designed and pitched an app idea.

Wise   April. 2024
Wise Woman Code Spring Program   *London,UK*
- Engaged in practical applications of data and computer science, enhancing hands-on skills through mentorship and guidance from industry experts actively shaping the sector.
- Completed intensive workshops on JavaScript, Docker, Postman and Cybersecurity, applying new skills in practical challenges. Shadowed a senior employee, observing machine learning applications for fraud detection and prevention.

Minds up language school   Dez. 2018- Jun. 2020
Administrative Assistant   *Brazil*
- Acted as the primary point of contact for 90 + clients, handling phone calls, emails and costumer service.
- Provided operational team with administrative support, handling financial transactions via accountancy software, payments, contracts, and related tasks.

Store supervisor   Jun. 2014 - Jun. 2015
Sales   *Brazil*
- Demonstrated attention to detail while handling financial records and transactions. Maintained commitment to quality standards and accuracy in financial administration.
- Implemented sales techniques, resulting in 15 per cent increase in sales, achieved through active customer service, marketing campaigns and audience insights.

TECHNICAL SKILLS

Computer skills: SQL, Python, JavaScript, HTML, CSS, Java, SPSS statistics, Microsoft packages, Excel.
Certifications: Microsoft Azure Fundamentals, JP Morgan Software Engineer Forage Job Simulation, British Airways Data Science Forage Job Simulation.
Spoken Languages: English(fluent), Spanish(basic), Portuguese (native)
